Sample Identification	Plant Identification*	Media Identification**	Nutrient Solution

Media – Collect media from around 10 sick plants. Place in plastic zip lock type bag. We need one quart of media.

Plant – Collect 10 plants (entire plant including roots) representative of the problem and place in plastic zip lock type bag.

Solution – Use plastic bottle with screw type lid. Triple rinse bottle with nutrient solution, including screw cap. Fill and tighten lid.

Wrap everything in newspaper, place in box and ship with a frozen blue ice bag to Western Laboratories. DO NOT USE DRY ICE!

* Use common name
